

**Subject: BScN Capstone Clothing Drive Volunteers**

Our team of Semester 8 BScN students led a capstone project clothing drive for the mental health in-patient unit on Sills 5 at Quinte Health Belleville General Hospital. This initiative is a continuation of meaningful work established by graduating BScN students in previous years.

Sills 5 regularly cares for patients who are admitted without adequate essential items, including clothing, footwear, and basic hygiene products. Access to these items can significantly affect patients' comfort, dignity, and overall experience while receiving care. Our clothing drive aims to help address this need by ensuring the unit maintains a supply of appropriate items for patients who would otherwise go without.

**Ben Grant**, a 2nd-year BScN student, generously volunteered his time to support the logistics of this project by monitoring donation boxes and assisting with item collection. His reliability and commitment have been instrumental to the success of this initiative.

In recognition of Ben's meaningful contributions, the team has provided him with a gift card and this letter of gratitude to include in his professional portfolio.

Sincerely,

Kerry Stafford, 4<sup>th</sup>-year BScN Student  
Capstone Team Member  
On behalf of the Semester 8 BScN Capstone Team  
Nursing Program, Loyalist College
